

**KLOÈ'** staircases are characterized by a landing which is adaptable during the installation to openings of any shape or size. **KLOÈ'** has an adjustable height between 253 and 306 cm.

The **direction of rotation**, whether clockwise or anti-clockwise, can be decided during the installation.

The **diameters** of the staircase are 120, 140 and 160 cm.

The recommended **ceiling aperture** is at least **5 cm** larger than the diameter of the staircase.

**Example :**

Ø staircase **120 cm** = Ø aperture **125 cm**.

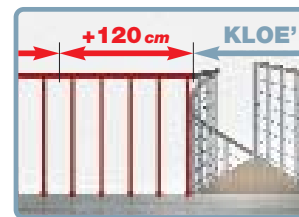

NO OPENING

ROUND OPENING

SQUARE OPENING

If two or more rises are added to the staircase it will be necessary to purchase supplementary 120 cm **HANDRAIL** modules (*Tab.2*).

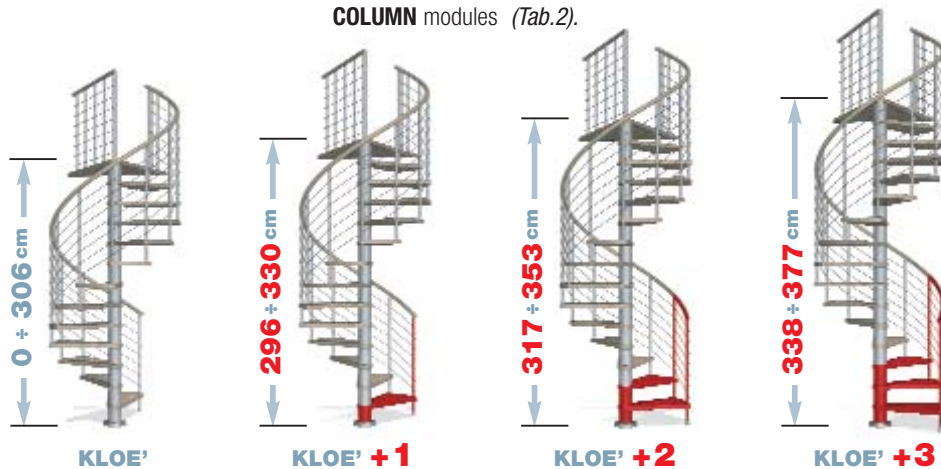

If two or more rises are added to the staircase it will be necessary to purchase supplementary **CABLE**. It is in stainless steel and measures 11 meters.

By purchasing one or more supplementary **RISES**, the height of the staircase can reach 377 cm. Supplementary rises consist of structure, tread and balusters.

The supplementary **BALUSTRADE** is necessary to protect the upper floor aperture. It comes in 120 cm scalable modules comprising 5 balusters, cables, handrail and fixings.

If you add or subtract rises to the staircase, it is necessary to purchase supplementary 82 cm **COLUMN** modules (*Tab.2*).

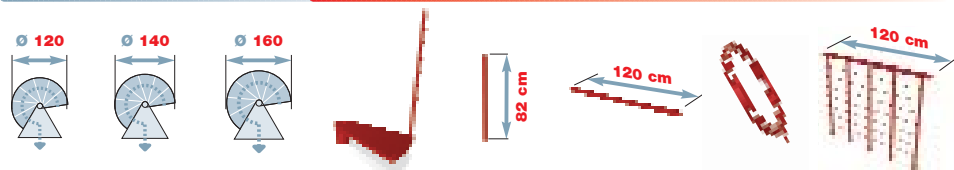

The balustrade can also assume a circular shape.

**KLOE' HEIGHTS and supplementary items**

TABLE NO.2 The measurements are in cm

**KLOE' STAIRCASE + SUPPLEMENTARY ITEMS**

STAIRCASE HEIGHT	N° RISES	+ N° RISES	+ N° COLUMNS	+ N° HANDRAILS	+ N° CABLES	+ N° BALUSTRADES
From 210 to 235	<b>(13 - 3) = 10</b> +		<b>1*</b>			
From 231 to 258	<b>(13 - 2) = 11</b> +		<b>1*</b>			
From 253 to 282	<b>(13 - 1) = 12</b>					
From <b>274 to 306</b>	<b>KLOE' = 13</b>					
From 296 to 330	<b>(13 + 1) = 14</b> +	<b>1</b>				
From 317 to 353	<b>(13 + 2) = 15</b> +	<b>2</b>	<b>2*</b>	<b>1</b>	<b>1</b>	
From 338 to 377	<b>(13 + 3) = 16</b> +	<b>3</b>	<b>1</b>	<b>1</b>	<b>1</b>	

Rise adjustable from 21 to 23.5 cm

\* Replaces the existing 125 cm column in the KLOE'staircase.

**Kloè, the colors of the steel and the shades of the wood.**

**Example:**

if you wish to purchase KLOÈ made up of **13 + 3 = 16** rises, as in the diagram on the left, you will need the following items:

- 1** KLOE' staircase
- + 3** Rises
- + 1** 82 cm column
- + 1** Handrail
- + 1** Cable
